INTRODUCTION

To reduce the circulation of illegal cellphones that are not registered with the Ministry of Industry, the government has made a policy of blocking IMEI on unofficial or unregistered smartphones. In addition to reducing the circulation of illegal smartphones, this policy is aimed at increasing state revenue. However, the policy made by the government has drawn protests from various circles, because illegal or unregistered smartphones have a cheaper selling price than smartphones that have an official warranty, especially on the iPhone brand. Formulation of problem

Based on the background of the problem above, the researcher determines the formulation of the problem as follows:

1. Is the Buying Interest related to IMEI Policy ?
2. Is the Price related to IMEI Policy ?

3. Is the Purchase Decision relate to IMEI Policy ?

RESEARCH METHODS

In writing this scientific article, the researcher uses qualitative methods and literature studies or library research. By reviewing theory and reviewing previous articles that are relevant to this research, especially in the scope of Marketing Management. In addition, the researchers collected data sourced from the Google Scholar application and used Mendeley as a bibliography reference.

In qualitative research, literature review must be used consistently with methodological assumptions. This means that it must be used inductively so that it does not direct the questions posed by the researcher. And one of the reasons for conducting qualitative research is that this research is exploratory. (Limakrisna & Ali, 2016)

DISCUSSION

Based on theoretical studies and relevant previous research, the discussion of this literature review article in the concentration of Marketing Management is:

1. Relationship of Buying Interest to IMEI Policy

Purchase intention is a condition in which a person intends to make a purchase of an item or service. Buying interest can arise from various factors, including: product quality, price, brand image and service quality. By having a good quality product, it will further increase a person's buying interest, because it becomes an added value of an item and increases consumer perceptions regarding the durability of the product.

Regarding the IMEI policy carried out by the Ministry of Industry of the Republic of Indonesia, namely limiting network access to the use of cellphones that are not officially registered. This policy certainly benefits the government and also consumers who have an interest in official products.

Due to the IMEI policy, consumers will prefer official products with registered IMEI rather than buying illegal products whose IMEI is not registered with the Ministry of Industry for reasons of security and convenience.

Buying Interest is related to IMEI Policy, in line with research conducted by: (Ilhamalimy & Ali, 2021).

2. Relationship of Price to IMEI Policy

With the IMEI policy carried out by the government on smartphones that enter and are offered in the market. Of course, smartphones without official warranty and IMEI are not

cheaper than smartphones with official warranty, because they will pay more for taxes or state income.

However, if someone has purchased a smartphone with an unrecorded IMEI, they can also activate the IMEI to Customs. But you have to incur additional costs that make a smartphone that was previously purchased at a cheaper price to have the same price as an officially registered smartphone.

Prices are related to IMEI Policy, in line with research conducted by: (Sinurat, Lumanauw, & Roring, 2017).

3. Relationship of Purchase Decisions to IMEI Policy

There are two models of a person in making a purchase decision, especially in buying a smartphone, in this case the registered IMEI and unregistered IMEI. That is, they will decide to buy a smartphone whose IMEI has been registered with the Ministry of Industry even though the price offered is more expensive than buying Black Market products that are not registered with the IMEI.

Then there are consumers who prefer to buy a smartphone with an IMEI that is not registered with the Ministry of Industry, with the reason that the price offered is relatively cheap.

Purchasing Decisions are related to IMEI Policy, in line with research conducted by: (Ikhsani & Ali, 2017).

Conceptual Framework

Based on the formulation of the problem, theoretical studies and previous research as well as discussion of the influence between variables, the conceptual framework is obtained as follows:

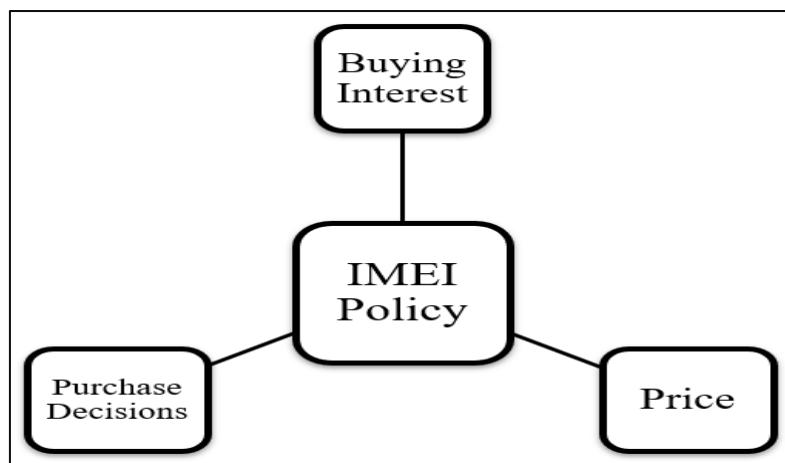

Figure 1. Conceptual Framework

Based on the conceptual framework above, then: Purchase Interest, Price and Purchase Decision are related to IMEI Policy.

Apart from the variables of Purchase Interest, Price and Purchase Decision related to IMEI Policy. There are other factors related to the IMEI Policy, including:

- 1) Promotion: (Ansori & Ali, 2017), (Andrian et al., 2021), (Kurniawan, D., Putra, C. I. W., & Sianipar, 2021), (Kurniawan, S., & Zen, 2021), (Manrejo & Sebayang, 2021), (Athalarik & Zahra, 2021), (Imaddudin, 2020), (Zahra, 2020), (Ala, 2017), (F. Saputra & Ali, 2022).

Saputra, 2022), (H Anas, 2020), (Lantu & Irfana, 2019), (Pangkey, Irfana, & Irsan, 2019), (Kainde, Saimima, & Yurnal, 2021), (Yurnal & Ihsan, 2019), (Athalarik & Susanto, 2020), (Iksan, Imaddudin, & Athalarik, 2022), (Imaddudin, Sitanggang, Bachtiar, & Priyadi, 2022), (Widiantoro, Nursyamsi, & Imaddudin, 2021), (Erviani, Suciati, & Pohan, 2019), (Sinaga, Madonna, & Novrian, 2020), (Zahra, 2022).
- 4) Leadership: (Ali et al., 2022), (F. Saputra & Mahaputra, 2022), (Zen, Sukaesih, & Malik, 2022), (Sudiantini, Sastrodiharjo, Narpati, & Indrianna, 2022), (Dhianty, 2021), (Noviriska, 2019), (Sulistyanto, Dwinarko, Sjafrizal, & Mujab, 2020), (Dwinarko, 2019).
